Location: Agra, India

Professional Summary

Passionate Java Developer fresher with knowledge of Java, Spring Boot, REST APIs, MySQL, HTML, CSS, and JavaScript. Skilled in building scalable web applications and solving problems through clean and efficient code. Seeking an opportunity to apply technical skills, gain industry experience, and contribute to real-world projects.

Technologies and Languages

- **Programming Languages:** Java, JavaScript, Python
- **Frameworks:** RESTful Web Services, Spring (Spring Boot, Spring Cloud), JPA, Hibernate
- **Core Concepts:** Object-Oriented Programming(OOP), Exception Handling, Multithreading ,Data structures and algorithms, Operating Systems, RDBMS, SQL, MVC Architecture, Design Patterns , System design
- **Databases:** MySQL, PostgreSQL, MongoDB,
- **Cloud Computing & DevOps:** AWS Docker, Git, EC2,
- **Web Development:** HTML5, CSS, Bootstrap
- **Tools & Platforms:** IntelliJ IDEA , IntelliJ IDEA , Vscode

AI Skills

- Prompt Engineering, AI-assisted Development, Automation Tools, API Integration, Problem Solving, and Basic Knowledge of Artificial Intelligence concepts, Machine Learning (Basic).

Education and Certifications

- | | | |
|--|---------|--------------------|
| ● MCA (Masters of computer Applications) | | |
| Agra public college of technology and Management(AKTU) , Agra, India | | 2024 – 2026 |
| ● Bachelor of science, DABRAU, Agra, India | 7.7CGPA | 2014 – 2016 |

Projects

E-Commerce Backend Project

Tech Stack: Java 21, Spring Boot 3.x, Spring Security,Jwt, Hibernate/JPA, MySQL,

- Developed a scalable E-Commerce Backend application using Java, Spring Boot, Hibernate, and MySQL.
 - Designed and implemented RESTful APIs for user authentication, product management, cart, and order processing.
 - Used Hibernate/JPA for efficient database operations and MySQL for persistent data storage.
 - Implemented layered architecture for clean, maintainable, and scalable backend development.
 - Integrated exception handling and validation to improve application reliability and security.
 - Tested APIs using Postman to ensure proper functionality and performance.
 - Managed project dependencies and build configuration using Maven.
-

- Used Git and GitHub for version control and project management

Online Examination System

Tech Stack: Java 17, Spring Boot 3.x, Spring Security, Hibernate/JPA, MySQL, Thymeleaf, Bootstrap 5

- Developed a secure online examination system using Spring Boot and Java 17. Implemented authentication and authorization using Spring Security with Role-Based Access Control (RBAC).
- Designed separate Admin and Student modules for efficient system management.
- Built CRUD functionalities for exam and question management.
- Developed RESTful backend architecture following MVC design principles.
- Implemented automatic score calculation and result generation features.
- Added form validation, exception handling, testing, and debugging for reliable application performance. Integrated MySQL database using Hibernate/JPA for efficient data management
- Designed responsive frontend interfaces using Thymeleaf and Bootstrap 5

Portfolio Website

- Personal Portfolio Website – Built a modern, fully responsive developer portfolio using HTML5, CSS3, JavaScript, and GSAP.
- Implemented smooth scroll animations, glassmorphism UI, dynamic particle background, and custom cursor effects.
- Optimized for SEO, performance, and deploy-ready on Vercel/Netlify with a clean component-based structure.
- Features interactive sections: hero with typing animation, animated skill progress bars, project cards, timeline, and a contact form with validation.

Soft Skills

- **Communication:** Clear and effective communication with cross-functional teams.
- **Team Collaboration:** Skilled in fostering collaboration and mentoring team members to achieve shared goals.
- **Problem-solving:** Strong analytical skills to troubleshoot and resolve complex technical issues efficiently.
- **Leadership:** Experience leading projects and guiding teams toward successful completion.
